Reynes' World

[SIGN IN TO EDIT](#)

This fan-fiction article, **Reynes' World**, was written by [Witcher190](#). Please do not edit this fiction without the writer's permission.

The world of **Reynes**, is a world of unknown name, which mixed with [The World](#), long ago, during the [Conjunction of the Spheres](#). It is called so, because of the presence of a powerful kingdom, called by this name, Reynes.

Another very important kingdom is the kingdom of Saguenay which is said to be a rival to the kingdom of Reynes.

Similar to [The World](#), Reynes' World, is a medieval world, full of magic and monsters (*Although a little more technologically and magic delayed than [The World](#)*)

Another big difference with [The World](#) is that there is only one big continent and a few islands scattered across the giant ocean that covers much of this world.

According to various reports, this sphere can be accessed through some ruins of mysterious origin, found in [Vinland](#).
